

# Hot wax spray gun **Duoline 2.0**

Article-Nr.: 140-200

## Technical data:

Flow-cup capacity:	max. 400ml
Mains connection:	230 VAC/50 Hz (optionally: 110 VAC/60Hz)
Operation voltage:	40 VAC
Power consumption:	max. 250 VA
Operating pressure:	0,5 -1,5 bar (recommended)
Temperature range:	20-95°C
Nozzle diameter:	1,2mm (=standard); 0,8mm; 2,0mm
Air cap:	Flat/Round jet

## Benefits at a glance:

- 30% lighter than the previous model
- High quality and robust
- Ergonomic Design
- Simple assembly and disassembly
- Safe working with safety extra-low voltage
